NORMALCY—CONSTRUCTIVELY

TO OUR PATRONS:

The PRODUCTION OF FOODS, the products of the FARM, GARDEN and HENNERY is the basic industry of our natural life and the fatness of our pantry after the harvest has been gathered and heads of live stock accounted is an excellent barometer whether or not we shall have continued PROSPERITY of industry and commerce.

THE CONSUMPTION OF FOOD STUFFS is steadily increasing due to the growth of our population and annually affords a greater market and PRODUCTION must likewise forge ahead to keep pace with this ever increasing demand. This may be obtained by heavier yield per acre, SEEDS of the PUREST STRAIN and HIGHEST GERMINATION, TOOLS and IMPLEMENTS of the most improved types, FERTILIZERS of the right formula for the respective crop and adapted to soil, selection of well bred live stock and the feeding of QUALITY grains and foods of KNOWN REPUTATION.

THE PEAK OF HIGH PRICES for all commodities has no doubt passed and if requirements needed by the grower declined in proportion with that of farm production NORMALCY will truly have been reached without involving financial loss to the producer.

Your CONFIDENCE and GOODWILL shown us in the past has given us a renewed inspiration for better service in the future and on this basis we ask your continued patronage.

Yours very truly,
TAYLOR BROTHERS

FARM AND GARDEN SEEDS

VEGETABLE growing whether for home use or for the market requires the most improved and standard type of seeds. The growers recognizing the importance of this, naturally supply their requirements from SEED HOUSES OF LONG ESTABLISHED RELIABILITY, in whom the greatest confidence can be placed. Being thoroughly acquainted with local conditions, understanding the kind and quality of seeds our customers need, we therefore, select the most responsible growers whom we know from long experience will furnish seeds true to name and of high germination.

We are strictly a Gardener and Farmers' Seed House, practical in every sense of the word, hence our experience with every phase of the business, for over a half century, enables us to render most dependable service. The steady enormous growth of our seed business year after year is conclusive proof that our seeds and service have given satisfaction.

SPECIAL—DON'T FORGET—When ordering seed sent by mail to add 6 cents per pound and 12 cents per quart for postage, and it is always best to give us the option on a substitution.

While we believe prices quoted are the best prices to be offered, still they are subject to market changes.

FARM AND GARDEN SEEDS

WE ARE STRICTLY a garden and farmers' seed supply house, using the same care in selection of our seed stock from reliable growers as would be exercised by the most particular gardener or trucker.

SPECIAL—DON'T FORGET—When ordering seed sent by mail to add 10c per pound and 15c per quart for postage.

TAYLOR BROTHERS' LAWN GRASS SEED

THE attractiveness of a suburban home is greatly increased by a well kept, closely-cut lawn. In order to obtain this, an important feature is securing the right kind of mixture; something that will remain fresh and green in hot weather. Taylor Brothers' Lawn Grass will form a deep green velvety lawn in a few weeks' time. A

uixture of the finest and most desirable grasses which gives satisfactory results.

WHEN TO PLANT SEEDS

The seeds of farm crops may be divided into two classes, according to the temperatures at which they will germinate or sprout readily and can be safely planted, and the blossoming time of fruit can be taken as a more certain guide than any arbitrary calendar date.

1st Class.—Those seeds that will germinate or sprout at an average temperature of forty-five degrees in the shade, or at about the time the peach and plum trees blossom.

Barley	Red Clover	Carrot	Parsnip	Onion
Oats	Crimson Clover	Cabbage	Kale	Pea
Rye	Grasses	Cauliflower	Lettuce	Radish
Wheat	Beet	Endive	Parsley	Spinach
				Turnip

These can be planted with safety in the spring as soon as the ground can be prepared, and some of them if planted in the fall, live through the winter.

2d Class.—Those seeds that will germinate or sprout at an average temperature of sixty degrees in the shade, or when the apple trees blossom:

Alfalfa	Cotton	Pole Bean	Okra	Pumpkin
Cow Pea	Egg Plant	String Bean	Squash	Tomato
Corn	Soy Bean	Melon	Cucumber	Pepper

For other Fertilizers, see pages 35 and 56.

VALUABLE PLANTS FOR SUMMER FORAGE AND ENSILAGE

(For prices see pages 3 to 8)

Crimson Clover. Solves the problem of cheap manuring; it is the great nitrogen gatherer and economizer in the use of fertilizers. Improves poor lands and restores to fertility those that have been worn down by excessive cropping. May be planted in spring, summer and fall. Splendid for reseeded Red Clover that has been winter killed. Sow 15 to 20 pounds per acre.

Soja or Soy Beans. One of the most remarkable drought resisting crops under cultivation. Will thrive under the most adverse conditions; tremendous yielder and valuable soil improver.

Cow Peas. When planted in rich soil make an enormous growth of vine of high feeding value and equal to clover for enriching the ground if plowed under Black Eye, Clay, Black and Whippoorwill Gray Crowder. New Era varieties are adapted to Northern growth. Sow 1 to 1½ bushels broadcast, or drill 20 to 30 pounds per acre.

Sorghum. (Early Amber.) This plant is fast coming to the front for summer pasture or forage. It withstands drought and grows luxuriantly when the grasses and even Millets are burned out with the dry summer heats. It makes excellent hay. Sow broadcast 1 to 1½ bushels, or drill 10 to 20 pounds per acre. Early Amber is best for this latitude.

Kaffir Corn. Is a non-saccharine Sorghum grown for the seed, which is good for poultry and cattle. Cultivation same as for Sorghum.

Canada Field Peas. These are very valuable for fattening stock, and can also be grown for soiling purposes, but are of greater value for fodder when fed as ground feed, or the vines can be cured for hay, which is of great nutritive value. They can be sown alone or with oats; if sown alone, sow 2 bushels to the acre; if with oats, sow 1 bushel of peas and 1½ bushels of oats.

Spring Vetches or Tares. (*Vicia Sativa*.) These are a species of pea, and grown extensively for stock feeding. Are excellent food for hogs and also a most valuable fertilizer. 50 to 60 pounds are sown per acre and cultivated same as field peas.

Winter Hairy or Sand Vetch. (*Vicia Villosa*.) Can be sown from July to November broadcast, at rate of 20 to 30 pounds per acre, with one bushel of oats or wheat, or 40 to 50 pounds if sown alone. Will grow on most any soil and produce a good crop. Splendid as a soil improver or for feeding.

Dwarf Essex Rape. It can be sown in drills far enough apart to cultivate, or broadcast. If sown in drills, but 7 pounds per acre are necessary. The best way is to sow it broadcast on very clean soil, or to sow it with your spring grain at the rate of 15 pounds per acre.

Speltz. Makes excellent pasture and good hay if cut at the proper season. The straw is stiff and does not lodge easily, and the grain does not shell out. Dry weather does not seem to have any effect on it whatever. It is a wonderful stooler and a robust grower and can be fed same as oats with the hulls. Every farmer should grow it. Sow at the rate of 50 to 60 pounds per acre.

Teosinte. (Reana Luxurians.) Its value lies in the fact that it can be cut several times during the season, and when allowed to remain without being cut attains a height of 12 feet. We would advise sowing the seed in rows 3 feet apart and the hills far enough to work, putting in three seeds about every 12 inches in the drill.

Sweet Clover, Bokhara (*Melilotus Alba*), also Yellow Blossom (*Melilotus Officialis*). While extensively used as a bee food, these clovers are valuable varieties for soiling (green manure); for sowing in the spring on lands which are later to be sown in alfalfa. They grow from 3 to 5 feet high, according to soil and location. Sow 15 lbs. per acre in early spring, alone, or 10 lbs. per acre with other crops.

Sudan Grass. For summer forage or grass crop will produce two or three cuttings each season, stools out thickly after the first cutting, makes a most nutritious and desirable forage crop. Sow in drills 10 lbs. to acre, broadcast 25 lbs. to acre.

GRASS SEEDS

(For prices, see pages 7 and 8)

Awnless-Brome Grass. (*Bromus Inermis*.) A valuable grass for light, dry soils. Will stand long droughts and produce heavy growths where other grasses frequently fail. 30 pounds to the acre. Bushel, 14 pounds.

Alfalfa. As a fertilizing, land-enriching crop, it is unequaled. The roots sink down into the earth searching for nourishment and bringing to the surface the chemicals and fertilizing materials that have been stored 10 to 15 feet deep. One seeding stands for years. All cattle are fond of it. If possible, sow with oats at the rate of 15 pounds per acre, or if the land is very poor, sow 3 pounds more. The first season the growth will be very light, but don't be worried if the plants are small and several inches apart, for that means the next season you will probably get from 3 to 5 tons per acre, and it increases for several years, producing as high as 10 tons; but that is a very large yield. It should be cut down when in full bloom, but don't cut too early and be careful not to allow it to become water soaked after cutting, as it greatly reduces its value for feeding.

Blue Grass. (Kentucky.) Extra fancy cleaned. One of the most valuable sorts for lawn purposes, and as pasture grass is indispensable. This grade is best for sowing lawns. Sow 3 to 5 bushels per acre for lawn; for pasture, sow $2\frac{1}{2}$ bushels. Bushel, 140 pounds.

Clover, Red. Fine quality, high germinating seed, free from foreign matter. 60 pounds per bushel.

Clover, Alsike (Swedish). Harvested with great care; the finest product of the market. 60 pounds per bushel.

Clover, Scarlet (Crimson). Used principally as a soil restorative. Both Delaware and Imported seed. Best quality. 60 pounds per bushel.

Clover, White Dutch. For thickening the growth of the lawn, a better seed could not be used. Our grade is extra fine and we can say every grain will germinate. 60 pounds per bushel.

Clover, Mammoth Pea Vine or Sapling. Grows much taller than the Common Red Clover, with larger, leafier stalks.

Canadian Blue Grass. Adapted especially to high, dry situations. Fine for permanent pasture. Bushel, 14 pounds.

Creeping Bent Grass. (*Argostis Stolonifera*.) Excellent for lawns; succeeds well in all locations; makes a low, velvety growth. Bushel, 20 pounds.

Crested Dogtail. An excellent grass for hard, dry soils; valuable for pastures or lawns; 25 pounds to acre. Bushel, 21 pounds.

English Rye Grass. (Perennial Rye.) Fine for an immediate effect. Bushel, 24 pounds.

Herd or Red Top, Fancy Hulled. Extra recleaned seed, free from chaff. Bushel, 32 pounds.

Herd or Red Top Grass. Jersey and Western. Very popular for field use. Bushel, 10 pounds.

Hard Fescue. Thrives well in dry situations where many other grasses fail; 30 pounds to the acre. Bushel, 12 pounds.

Hungarian. Like German in growth, distinguished by brown color seed.

Italian Rye Grass. An annual; quick in maturing. Bushel, 22 pounds.

Meadow Fescue. English Blue Grass. An excellent grass for permanent pasture or hay. Bushel, 22 pounds.

Meadow Foxtail. An elegant pasture grass. Bushel, 7 pounds.

Millet, German or Golden. Best known of all varieties; has, in consequence, a large sale; is a medium early forage plant, prolific in stalk and grain.

Millet, Common. Has a smaller seed head than German and does not produce as heavy a growth of forage.

Millet, Japanese. (Barnyard.) It yields an enormous crop of forage, which is greatly relished by stock. When cured, it makes an excellent hay.

Millet, Siberian. Grown largely in the Northwest, and is there considered better than any other. It yields a heavy crop of superior forage and seeds abundantly.

Natural Green Grass. Largely used on lawn and field. Bushel, 14 pounds.

Orchard Grass. For pasture, sowing under orchards or shady places. Bushel, 14 pounds.

Rhode Island Bent Grass. (*Agrostis Canina*.) Resembles Herd Grass, forming a fine turf, even on thin soils. Doing especially well in salt atmospheres. Sow 40 pounds to the acre. Bushel, 15 pounds.

Timothy Seed. Best grades, strictly recleaned. 45 pounds per bushel.

Wood Meadow Grass. Particularly adapted for pleasure grounds and lawns; will grow under trees where few other grasses can exist. Bushel, 14 pounds.

KEYSTONE FOODS

THE progressive poultryman may be compared to a manufacturer, with laying hens and growing stock for machines, the various grains and foodstuffs as the raw material and eggs and meat the finished product. Obviously, his profits will depend upon two things: the efficiency of his machines, and the use of raw material of the right kind. Both factors are equally important, and certain it is that the best machine cannot be made to produce good

results on inferior or unsuitable raw material. Success or failure in poultry raising almost always lies in the difference between proper and improper feeding.

O.D.O. Chick Food

KEYSTONE O. D. O. THE BABY CHICK FOOD

Feeding Directions

Don't feed food of any kind to young chicks until they are out of the shell 48 hours, nature provides sufficient sustenance to carry them over this period. After this time has elapsed feed O. D. O. in clean hopper or pan, just enough so they will clean it up in 20 minutes. Feed four or five times a day. Constantly keep before them water or milk with chill taken off in plate or shallow pan. Also baby size of Crystal Grit, Charcoal, etc.

KEYSTONE CHICK FOOD

It is obvious that an organism made up of well-defined elements must require those elements to maintain health and promote growth. We have combined the elements necessary for a chick's growth in our Keystone Chick Food, which is a scientifically balanced ration, consisting of sound grains and carefully selected seeds, and which never varies in proportion or quality.

For best results, feed, in connection with KEYSTONE GROWING MASH. The Keystone Chick Food of small quantity in a litter of some kind. Preferably morning and evening, larger quantity in evening. Feed grains of some kind for the noon time meal or the Keystone Substitute for Grains.

DAILY FEEDING DIRECTIONS

MORNING—Feed four pounds KEYSTONE SCRATCH FOOD in straw or its substitute to 100 laying hens.

NOON—Feed greens of some kind, as sprouted oats, cabbage, lettuce, kale, mangels, or the KEYSTONE SUBSTITUTE FOR GREENS.

EVENING—Feed eight pounds more of the KEYSTONE SCRATCH FOOD in straw as above, two hours before roosting time.

KEYSTONE SCRATCHING FOOD

Exercise is essential to health; it aids digestion, promotes vigor and insures a large yield of fertile eggs. To induce a flock to exercise consistently, however, the hens must be compensated for their efforts. They should always be rewarded for their pains. Keystone Scratching Food contains such an attractive variety of grains and seeds the fowls never tire of searching for it. This is one of our best sellers. Try it and you will use nothing else.

SPECIAL DIRECTIONS

Be careful to have MASH HOPPER easy of access so hens can reach conveniently, also perfectly clean and ALWAYS FILLED with the KEYSTONE DRY MASH (LAYING). Feed dry as it comes from the bag. THIS IS THE EGG MAKER. Object feeding only four pounds of SCRATCH FOOD in morning, so hens will eat more of the LAYING MASH during the day.

KEYSTONE DRY MASH (Laying)

Protein constitutes the nitrogenous portion of the food, and is required to grow bone, muscle, feathers and eggs; keep the blood in healthy condition and repair waste tissues.

IN ADDITION

Have accessible plenty of clean water, sharp grit, oyster shells, charcoal or the KEYSTONE EGG PRODUCER AND REAP BUSHELS OF EGGS.

Never feed more than the birds will clean up before next feeding. This wastes money and makes birds lazy.

CAUTION

Watch closely, see if birds are eating as much of the MASH as the Grain ration, if not reduce Grain ration for morning, feeding only two pounds in place of four pounds.

DANDY LAYING MASH AND SCRATCH FOOD

DAILY FEEDING DIRECTIONS

MORNING—Feed four pounds of the DANDY SCRATCH FOOD in straw or its substitute to 100 laying hens.

KEYSTONE PIGEON FOOD "A"

If you are not making money from your pigeons and your stock is of known reliability, you had better investigate your feed. Almost all of the failures in the squab business are attributed to careless, improper feeding. There is no economy in cheap, mildewed or partly spoiled grain; only trouble, sickness and mortality. Feed only the best; which is to say—feed Keystone brands. They are carefully balanced to meet the requirements of the birds, and never vary from an established prime quality. Pigeons fed upon our foods are sure to be prolific, and the squabs will develop quickly and become unusually large.

KEYSTONE HEALTH FOODS

THE secret of successful poultry raising is to produce eggs when they are selling at a high market. The first step in this direction is to maintain a healthy flock. Keystone Health Foods are to secure maximum egg production at a minimum cost and effort on the part of the feeder.

KEYSTONE SUBSTITUTE FOR GREENS

This formula comprises the various dry nutriment usually fed poultry in place of, or as a substitute for, GREENS. To secure best results steep in luke-warm water in morning for the mid-day meal. Just enough water to cover the mash, so all will be absorbed, feeding only what the birds will clean up in twenty minutes.

***KEYSTONE EGG MAKER**

TIME was when the 200-egg hen was looked upon as a dream. Today she is very much of a reality. In fact, the 300-egg hen has arrived. The difference between the "manure pile digger," who lays 60 eggs a year, and lays in the Spring when eggs are cheap, and the 200-egg hen, is directly attributable to increased food consumption. Maintain the hen's appetite so that she will eat large quantities of the right kind of food every day and she is bound to lay. She has got to lay or "bust."

Keystone Egg Maker is a compound of the most healthful ingredients, imported roots, herbs and barks, blended in the most exacting scientific manner, and guaranteed to make a perfect digestive tonic and stimulant. It regulates and purifies the fowls' blood and digestive organs, and in so doing sharpens and stimulates their appetites so that they crave large quantities of food; consequently, they are induced to lay. Just as the human desire for food becomes jaded and requires a

tonic, so it is with chickens, only more so; and by feeding a mash containing Keystone Egg Maker a flock of hens will be kept in the pink of condition.

Keystone Egg Maker is put up in 42-ounce cartons, which contains 150 feeds for 10 hens. **PRICES:** \$0.30 per package (Parcel Post, 7c extra); 12-pound bag, \$1.75; postpaid, \$1.92. 25-pound buckets, \$3.25; postpaid, \$3.55.

KEYSTONE LICE PAINT

This preparation positively kills red mites, which suck the blood of the fowl.

Keystone Lice Paint does effective work in ridding horses and cattle of lice, mites, etc. To kill lice on hogs, spray the bedding thoroughly with Keystone Lice Paint. Also coat the rubbing posts with the liquid.

***KEYSTONE ROUP CURE**

Roup is the terror of the poultrymen, and yearly thousands of fowls are lost because of failure to treat the disease properly. Your flock may be saved by buying now a package of Keystone Roup Cure. Roup usually follows neglected colds. It is catarrhal in its nature, and first symptoms are frothiness and bubbles in the corners of the fowls' eyes, generally

accompanied by sneezing and snuffles. The discharge always has a foul odor, which thickens and clogs the nostrils. The bird's head usually swells, the eyes bulge, and thick, slimy masses form in the mouth. We put it up in two sizes, the small size making 25 gallons of medicine, the large size 75 gallons.

PRICES: \$0.30 and \$0.60 per box; by parcel post, 5 cents extra.

This food is recommended for those who prefer feeding fish scrap to beef, or where it is desired to use both, which makes an excellent combination. It is manufactured from strictly fresh fish, scientifically cured, and guaranteed to contain only the purest articles. It is, in fact, equally as pure as any fish prepared for human consumption, and just as fresh. Experiment Stations endorse Fish Scrap, and it is in use on thousands of farms.

POULTRY AND ANIMAL REGULATORS AND REMEDIES BUTTERMILK BABY CHICK FOOD

Healthy birds and lots of eggs, the two big things in poultry raising, usually follow the use of

Pratts Poultry Regulator

Packages 30c., 60c. and \$1.20; 12 lb. pails, \$1.80; 25 lb. pails, \$3.10.

It builds up vitality, promotes sound digestion, sharpens appetite, thus helping to put birds into condition for heavy egg laying or winning blue ribbons.

Given to breeding stock it increases the fertility of eggs, strong in vitality, that will hatch chicks that will grow. Use it if you want big hatches of healthy chicks that will develop into

husky pullets and cockerels.

It will help prevent many of the common poultry ailments.

When baby chicks come, keep them healthy and growing, and bring even the weak ones along by feeding

Pratts Buttermilk Baby Chick Food

14 lbs. for \$1.35. Packages 30c. and 60c.

A largely predigested baby food for baby chicks. Guaranteed to raise every livable chick. Costs about a cent a chick for three weeks. Prevent leg weakness, white diarrhoea, "pasting up" and other chick diseases.

More work out of your horses, more milk from your cows, fatter hogs—these are a few of the benefits which come from using

Pratts Animal Regulator

This is the original and pioneer stock regulator of America. Tested thoroughly for nearly half a century, its worth is known and recognized by stock owners the world over. Always sold on a guarantee that it will satisfy you or your money back.

25 lb. pails, \$4.10, are popular with our customers. Packages 30c., 60c. and \$1.20. 50 lb. and 100 lb. sacks.

Don't let ROUP cut your profits. The sure and easy "ounce of prevention" against this dangerously contagious disease is

Pratts Roup Preparation

Tablets or Powder, 30c., 60c., \$1.20.

Quickly absorbed by the blood, purifies the system, reduces fever, allays inflammation. The safe remedy for roup, colds, catarrh and many bad weather diseases.

Get rid of lice on your poultry, in nests, dustbaths, incubators and elsewhere by using

Pratts Powdered Lice Killer

30c. and 60c.

Effective, non-irritating. It quickly kills lice on little chicks, big chicks, setting hens and incubator chicks. It rids horses, cattle, hogs, dogs and cats of lice, and destroys ticks on sheep. It destroys many insects and bugs on vines, plants and flowers. Drives out moths from closets, furniture, carpets and clothing.

Buckeye Incubators

THE unprecedented success which has followed the Buckeye for twenty-five years is primarily due to the invention of the Buckeye hot water system. Without this wonderful system of hot water heating, that perfect balance between the temperature, moisture and ventilation, which is so necessary to successful incubation, would be a physical impossibility. The ability to heat the egg chamber without cooking all the moisture out of the air is not only responsible for the abundant supply of natural moisture, but at the same time the soft radiated heat from the hot water tank provides an absolutely uniform temperature, and permits

the perfect ventilation of the egg chamber at the same time.

Buckeye Standard Brooders

The Standard Brooder has actually revolutionized the whole poultry industry by helping the breeders to raise a much larger percentage of their young stock with just about one-fourth of the labor.

For the big breeder it has been a veritable God-send, and in a large number of cases has turned money losing propositions into highly profitable plants, while for the smaller breeder it has been just as valuable through its ability to bring the young stock to quicker maturity and saving many valuable fowl that, under ordinary conditions, never would have survived.

CYPHERS COMPANY INCUBATORS

Made in 3 styles.

FOR the season of 1921 we offer our customers the Cyphers Incubator Company's complete line of Incubators. These *three styles* of high-class, guaranteed hatching machines, represent all that is efficient, convenient and reliable in incubator construction.

MADE IN FOUR SIZES.

STANDARD CYPHERS INCUBATORS

These are machines that *for twenty years* have been recognized as the "Standard hatchers of the world." Tens upon tens of thousands of them have been sold, and are in successful use in every civilized country on the globe. They are used by more Government Experiment Stations, on more large, practical poultry plants, on more successful duck and egg farms, and by a larger number of foremost poultry breeders than all other makes combined. They are the last word to date in incubator building, not a penny being spared anywhere in their construction to make sure of their doing satisfactory work in *all climates*, under *widely different conditions*, in the hands of all sorts of people. They

are built to hatch *and to last*. With ordinary care they should last an ordinary lifetime. Every Standard Cyphers Incubator is guaranteed by the manufacturers to do first-class work in the hands of every purchaser who will give it a fair trial.

Are built in popular sizes and at prices as follows: 70 eggs, price complete, \$19.50; 144 eggs, price complete, \$30.00; 244 eggs, price complete, \$41.00.

COLUMBIA HOT-AIR INCUBATORS

Are built to meet the widespread demand for large-capacity lamp-heated machines that can be sold at *surprisingly low prices* and yet be guaranteed to do high-class work. Have wooden cases, attractively finished in dark green, with brass trimmings and double walls. Seamless-bottom lamp bowls, best quality brass burners, zinc and steel standard Cyphers toggle-joint thermostat and *same regulating equipment as used on the highest priced machines*. Fume proof, draft heater, asbestos-covered and metal banded. Automatic in ventilation and embodies diffusive principle. Roomy chick nursery under egg trays.

Are made in two sizes: 140 eggs, price complete, \$20.75; 250 eggs, price complete, \$28.40.

MADE IN TWO SIZES.

SUPERIOR HOT-WATER INCUBATORS

These machines are exactly what the name says. They are heated by hot water instead of with hot air and are "superior" in *every detail*. The water boiler and tank (tubular) are of heavy-weight copper. Lamp has seamless bowl; burner is best on market. Incubator case is of *wood*, attractively finished in golden brown, with brass trimmings (hinges, buttons, etc.) and has *double walls*, with air space insulation. Are equipped with Standard Cyphers zinc and steel, toggle-joint thermostat and knife-edge regulator. Have *forced water circulation*, and are automatic in ventilation. Roomy chick nurseries.

Are built in two sizes: 65 eggs, price complete, \$13.45; 130 eggs, price complete, \$21.90.

MADE IN TWO SIZES.

THE CYPHERS PARADISE BROODER

We believe the Paradise One-Lamp Sectional Brooder to be the best indoor brooding device invented thus far as a practical, convenient and economical nursery for newly hatched chicks and ducklings. It embodies the correct principles of brooding chicks and ducklings by artificial means. Heat is furnished in the right way for growing chicks. Plenty of light gets into each section. Ventilation of all parts of this brooder is thorough. There is plenty of room for exercise. Fresh water is easily supplied to each flock of chicks.

Complete brooder has four sections, each section holding two separate flocks of fifty chicks. Total capacity, 400 chicks. Means for feeding and caring for chicks are very convenient and chicks are always under control of the operator. One large oil heater provides warmth.

PRICES: Base section, \$20.00. Additional sections (can be added as desired), each, \$12.00.

Style "D" Indoor Brooder, \$14.50 each.

CYPHERS ADAPTABLE HOVER

The Cyphers Adaptable Hover is self-ventilating and self-regulating. It supplies a continuous flow of fresh, pure, warmed air under the hover, and at the same time maintains a steady, uniform heat. All the essentials of successful brooding of chicks are automatically provided. Thousands of poultry growers use this hover in raising big, strong flocks of chicks. It is "adaptable" to use in outdoor brooders, colony coops, portable houses, home-made brooder coops made from dry goods boxes, piano boxes and organ cases, as well as indoors in large brooding houses. It is constructed entirely of non-combustible material, and bears the Fire Underwriters' inspected brooder label. Capacity, 100 newly hatched chicks, or 75 chicks that are ten days to six weeks old.

Price of Cyphers Adaptable Hover, \$11.00.

CYPHERS PORTABLE HOVER

Rated capacity, 100 newly hatched chicks, or 75 chicks that are ten days to six weeks old.

Price of Cyphers Portable Hover, \$11.00.

APACO POULTRY FEEDER

There is probably nothing in poultry accessories that has attracted such universal interest or that has been so widely and so quickly adopted as the system of automatic feeding, though it is not at all surprising, for naturally any device applying to any business which effects a saving of 25% in the raw material (in this case, grain) and reduces labor more than one-half, would find a ready market in any line.

Price, each, \$2.00.

DRY FOOD HOPPER

The best food-saving dry food hopper on the market. Fowls cannot scratch food out and waste it, yet food is always in sight. It cannot clog, is easy to fill, easy to keep clean. The Boston Hopper is rat proof; it saves your feed for the fowls. Made in four sizes.

PRICES:

Large size, holds $\frac{1}{2}$ bushel, ea., \$1.50;

Small, for

meat scrap, holds 1 peck, each, \$1.50; Long chicken size, holds 1 peck, each, \$1.50; Small chicken size, holds $\frac{1}{2}$ peck, each, \$1.35.

GRIT AND SHELL BOX

Made of best grade of galvanized iron. Has three compartments—for grit, oyster-shell and charcoal. Cover or lid on a slant prevents fowls roosting on the box and keeps contents clean. It is necessary in every well equipped poultry plant. Made in one size only.

PRICES: Each, \$0.75; 3 or more, \$0.70 each.

DRY FOOD HOPPER

This hopper is similar to the grit and shell box, but is larger and has two compartments, holding three quarts in one and six quarts in the other. The ideal hopper for meal scrap and dry mashes.

PRICE: Each, \$0.85.

CYPHERS SAFETY BROODER STOVE

Cyphers Safety Brooder Stove consists of a brass oil fount and a safety water pan of the same metal that holds nearly a quart of water and extends out over the entire surface of the oil bowl, thus placing a sheet of cold water an inch to an inch and a half in thickness between the oil in the oil fount and the flame. Widely used in heating home-made brooders.

PRICE: Each, \$3.95.

CYPHERS X-RAY EGG TESTER

Made to fit on an ordinary hand lamp. In a dark room the light will penetrate the shell and illuminate interior of egg.

PRICES: \$0.60; postpaid, \$0.65.

ELECTRIC

Fire Fly Egg Tester

Equipped with latest improved Tungsten batteries. Shows condition of egg at a glance. Will test from fifteen to twenty thousand eggs.

PRICE: Parcel Post, \$5.00.

COMBINED FOOD AND WATER HOLDER

The guard lifts out of the pan, making the pan easy to clean. They are made of heavy galvanized iron, in three sizes.

PRICES: Small size, each, \$0.50; Medium size, each, \$0.65; Large size, each, \$0.90.

COMBINATION WATER FOUNTAIN AND FEEDER

Can be applied to any glass quart jar.

PRICES: Single, \$0.20 each; $\frac{1}{2}$ doz. lots, \$1.10 doz.; 1 doz. lots, \$2.15 doz.

NOTE: When ordering goods by Parcel Post be sure to include sufficient postage to avoid delay.

LICE-PROOF PERCH SUPPORTS

A BIG help in ridding your flock of lice and mites, and in keeping them away. The cup filled with oil stops the pests from crawling on to your fowls. A cup above oil cup keeps out dust and insures continuous protection. Are strongly made and easily put up with screws. Made in two styles—upright and wall for fastening to side walls.

PRICES: Upright, pair, \$0.55; six pair, \$3.00; Wall, pair, \$0.45; six pair, \$2.50.

KEEP CLEAN WALL FOUNTAIN

The construction of these fountains prevents the water from getting dirty and full of litter, yet allows fowls to drink water readily. They are very convenient to handle, and can be hung upon the wall above the floor, the back of the can being flat. They will not break by freezing.

PRICES: One gallon size, each, \$0.85; two gallon size, each, \$1.10.

SEPARABLE WALL FOUNTAIN

A labor-saving wall fountain that can be separated, or opened, for cleaning and filling. Water keeps clean in this fountain. Made of heavy galvanized iron, in two sizes.

PRICES: 5 quart size, each, \$1.00; 9 quart size, each, \$1.40.

FOOD OR WATER CUP

Japanned, strong and durable; holds one-half pint each, enough for all ordinary purposes. The wires can be bent to secure them to any style of coop.

PRICES: \$0.25; postpaid, \$0.30. Per dozen (weight, 3 lbs.), \$2.75.

SANITARY CHICK SERVER

This Popular Chick Server is used extensively for supplying food and water to small chicks, both on range and confined in brooders, brooding houses, etc. Consists of two parts only, is easy to clean and keep clean. Made in one size only.

PRICE: Each, \$0.30.

NORWICH AUTOMATIC EXERCISER AND FEEDER

THIS machine is as near perfection as human intelligence can make it. It consists of a hopper, to contain the feed, in the bottom of which is fitted an adjusting valve, which is set to allow such quantities of feed to escape as may be desired. Directly under the valve is located the deflector, upon which the feed falls and by it is scattered in a wide, even circle. As the fowl strikes the feed bar it sends a regulated shower of feed on the deflector and it is thus scattered.

DIGESTER TANKAGE

HOG money is big money if your hogs are fed Digester Tankage. It will increase your hog profits one-third and reduce your feed bills accordingly. Corn and other farm grains are rich in carbo-hydrates and fats, but low in protein, which is absolutely essential to secure economical feeding results. There are several sources of protein, and Digester Tankage is by far the cheapest. For proof of this compare the analysis of Tankage with that of any other food.

TABLE AND DAIRY SALT

Buy salt from us and you will get the best at the lowest prices. The Wigwam ranks very high and we would be very glad to quote prices in any quantity.

Wigwam Brand is a high grade, granulated vacuum process salt, especially refined for dairy, cooking, baking and table use, is strictly pure, sparkles like a diamond, the result of perfect crystallization, makes a brine as clear as crystal and will not harden in any climate.

Ground Salt (coarse grain) is the first product of evaporators and is a coarser grain than Perfection Brand. It is preferred by packers for pickling meats, etc.

Agricultural Salt is grades that have become discolored or dirty. It is used for fertilizing and for any purpose where quality is not essential. (We do not guarantee the quality of Agricultural Salt.)

Mineral Salt is white, bright, sparkling and clear (almost chemically pure). Used for packing meats, freezing ice cream, refrigeration, charging ice machines, pickling, salting hides and skins, and feeding horses, cattle and sheep.

Turk's Island Salt. Genuine article.

JERSEY BRAND POULTRY WIRE NETTING

FEW people realize what a vast difference there is in the quality of wire netting, and yet such is the case. And on a poultry farm where large quantities are used, this factor becomes a very vital one. Cheap, inferior nettings soon rust out, and become a source of continual trouble and expense to the poultryman. Fence your plant with Jersey Netting and you have fenced it with the most durable. It is made of the best materials, heavily galvanized after it is woven, and guaranteed to be straight and free from any defects. We carry a large supply of this fencing in stock.

THE CONTRAST SPEAKS FOR ITSELF

Mulford Cultures contain pure, tested strains of active, vigorous nitrogen-fixing bacteria, for inoculating seeds of legumes or soil.

Mulford Cultures are scientifically prepared and tested with the utmost care and skill. Enormous numbers of these very valuable and desirable bacteria are thus available to you in every package of Mulford Culture and may readily be applied to your seed. The sealed bottle insures purity.

Legumes offer the best-known means of maintaining soil fertility and rejuvenating over-cropped and worn-out fields. They add both humus and nitrogen to your soil and thus increase your yield of wheat, cotton, corn and other non-legume crops.

The U. S. Department of Agriculture and many State Agricultural Experiment Stations recommended inoculation of legumes with nitrogen-fixing bacteria to induce a prompt "catch" and increase your yield.

Mulford Cultures are prepared for

SELECTED MAINE GROWN SEED POTATOES

OUR potatoes are grown expressly for seed purposes in Aroostook County, Maine; carefully selected, and the equal of any seed potatoes on the market. They are put up in barrel sacks of $2\frac{3}{4}$ bushels or 165 pounds in a sack.

We cannot quote prices in this catalogue for the reason that the value of Potatoes fluctuates constantly. Customers entrusting us with their orders, however, may feel assured that they will be charged the lowest possible price

for strictly Maine grown seed. Write us for quotations on carload lots or less.

In selecting a car you usually use every precaution to secure the one that you believe will give you the best service at the least expense. But it matters very little whether your car cost \$1000.00 or \$5000.00, if your plugs go wrong your car naturally stops and usually at a critical time. Then why is it not just as important to secure a plug that will keep your car buzzing along day after day without any signs of weakness or mis-fire. Our past experience in handling plugs has made us cautious, and in adopting the **TABRO PLUG** we have fully tested every part, including porcelain, grade of steel and all material used in the construction, which has convinced us we have the right plug for every make of car at a very moderate price, with the following guarantee.

Guarantee

TABRO Spark Plugs are made of only the highest quality materials and are carefully hand assembled. We guarantee them as to workmanship and material used.

S. W. Auto Soap is a pure Linseed Oil Soap for cleaning Automobiles and keeping the finish in good condition. It contains no free alkali which will ruin the varnish finish.

It will remove all dirt, dust, mud, etc., and the original finish will be brought out, without leaving the surface dull or smeary, as in the case of many Automobile Soaps.

Linseed Oil is the life of all Varnish, therefore, Automobile Soap builds up the finish, and keeps the car out of the paint shop. One-half pint of Automobile Soap should be used to one pail of water.

It is put up in 1 lb., 37c; 5 lb., 32c lb.; 10 lb., 30c lb.; 25 lb., 27c lb., and 50 lb. cans 26c lb.

LAWCO RIM TOOL

The Quickest Way to Remove
Tires and the Safest

The tool can be used to break open any sort of latch as well as to contract the rim or to latch it in place. Breaking the latch is done with an expansion movement performed by a single slight movement of the lever.

Price, \$4.00 each.

CLAMERT CHAIN REPAIR COUPLERS

One broken cross chain means danger. When one breaks, many more are ready to go. In stopping suddenly on a slippery street, as the motorist must do every time he drives, both wheels must rest on whole strong cross chains or a serious skid may result.

No motorist can afford to wait until he reaches a garage to repair his broken chains.

Price, 90c. a dozen; 3 for 25c.

HYDRO-PUROCK

HYDRO-PUROCK is admittedly the best water for automobile storage batteries. It is not just a distilled water, but is prepared specifically and exclusively for battery purposes.

The very life of your battery depends on the kind of water you give it to drink. Unless it is pure water, you might as well forget all the rules of battery care and prepare for trouble of some kind or another.

GASTINE America's Standard Carbon Remover

Removes Carbon—"Gastine" will keep your cylinders, valves, pistons, spark plugs, etc., "as clean as a whistle"—absolutely free from carbon deposits.

Increases Power—"Gastine" gives an increase of 30 per cent. in power and speed on the hills and on the level by giving at all times a perfect mixture that flows freely and constantly with every touch of the throttle.

Saves Gasoline—"Gastine" will positively give you at least "one-third more mileage" from your gasoline, as the concentrated oils used enable the user to allow a little more air to enter the carburetor, a proof that you are getting more miles to the gallon.

Guarantee

"GASTINE" is absolutely non-injurious to the finest motors; will not clog the feed pipe, and is sold with an absolute guarantee that your money will be cheerfully refunded if "GASTINE" does not meet every claim made for it.

Packed in cartons of 1 doz. packets of 100 tablets.

Price, 1 doz., \$11.00; less quantities, \$1.00 each.

WHISTLER

"IT WHISTLES WHEN IT'S HAD ENOUGH"

THE WHEEL THAT WONT COME OFF

Price, complete set of five wheels, with four inner hubs, four hub-caps, hub-cap wrench, etc., in choice of colors—black, white, cream, green, red, blue, and khaki, for Ford Cars... \$70

Same equipment for Chevrolet 490 and Overland Four... \$80

Prices for other cars on request.

The secret of the perfect safety of the Stewart Wheel is in the reverse taper construction of the parts of the hub. After the wheel is slipped on it must be turned enough to bring the tapers into proper contact before the steel wedges of the hub-cap can be applied. Once they are in place, the wheel positively cannot come off by accident. This taper construction bears all the strain that in most other wire wheels is thrown directly against a frail hub-cap.

The beauty of the Stewart Wheel adds distinction and attractiveness to your car. The resilient steel spokes take up all the road shocks and give you greater comfort in riding.

DOLPHIN MAGNETO WRENCHES

These are put up in neat roll packages of 1 dozen, wrenches to fit every magneto. Price, full set, \$1.50; every auto owner should carry a set. Order now.

MYERS' COMPRESSED AIR SPRAYER

One of the special features of this sprayer is the nozzle by means of which the spray can be adjusted from a broad fine spray to a long distance spray throwing water 25 feet so that the tops of ordinary trees can be easily reached. This nozzle is adjusted by simply opening or closing the hand.

You will be more than pleased with this Pump which comes in one size only for spraying trees, gardens, flowers and plants.

THE "NORCROSS" HAND GARDEN CULTIVATOR

Its work equals that of the highest priced wheel plow on the market; sells to those who have a small home garden. Made of first-class material, shovels forged from the steel prongs, every part being detachable. It works between rows, or the center shovel can be removed and the row straddled. It pulls the weeds, pulverizes the soil, is light, durable and easy to operate.
